Sue Big Oil: meeting on August 13 at 10 am

Last year, in BC, we experienced a heat dome, wild fires, drought and floods. Climate change played a role in all of this. The financial cost is high.

Why should the bill land on our doorstep, while those who extract fossil fuels profit?

They need to pay their fair share for the climate emergency. 28 law professors from across Canada have declared that there is a legal basis for a lawsuit in BC against fossil fuel companies for climate cost. (Friends of the Earth in the Netherlands have sued Shell Oil and won!)
